Software Engineering

Advanced Databases
QA & Database Security (SQL / NoSQL)

Software Testing
Networking

EDUCATION

Software Engineering Technology Co-op Diploma

Centennial College, Toronto, ON

Jan.2020-Present

Expected graduation: Dec. 2023

- Currently maintaining aggregate GPA of 4.3
- Relevant courses:
Web Interface Design | Software Testing & Quality | Unix/Linux Operating Systems
Client-side Web Development | Advanced Database Concepts | Programming

RELATED WORK EXPERIENCE

Academic Projects at Centennial College, Toronto, ON

Jan-Aug 2020

- Constructed mock real estate website showcasing properties for sale as a project with HTML/CSS. The website allowed users to browse listings and search information on properties available based on its location and price.
- Designed and developed a personal portfolio website in HTML/CSS featuring links to subsequent web development projects for technical evaluation.
- Made practice advertisement websites for Ninja smoothie maker and Banff National Park in HTML/CSS.
- Generated an interactive “Bug smasher” game using JavaScript.
- Created ERD models and database for airline reservation system as class exercise with Oracle MySQL to run and test queries.
